PROFESSIONAL SUMMARY

Versatile developer presently working as Junior Software Developer, distinguished for collaborative skills and a track record of independently delivering impactful results. Ample experience in full-stack development, delivering well-documented, tested, and operable code. Efficient in collaborating and communicating new ideas and opinions.

AWARDS AND CERTIFICATIONS

Postman API Fundamentals Student Expert | Postman
Peer Mentor | Department of English - GEC
Trailhead Expenditure badge holder | Salesforce
Python Certification | Coursera

TECHNICAL SKILLS

Languages : Python, java, SQL (MySQL), JavaScript, HTML, XML, JSON, CSS,
Frameworks : SpringBoot, Jstl, React Js, Bootstrap
DevOps and API Tools : Git, Docker, Kubernetes, Azure DevOps, GCP, Jenkins, Swagger, Postman
Cloud and Security Tools : AWS, Keycloak, SQL Server
Others : Agile Methodologies (Scrum), Design Patterns, Debugging, Root Cause Analysis

EXPERIENCE

- Software Engineer 1** | Thales April 2023 – Present
- Spearheaded the successful execution of a full-stack development project, enhancing website performance by 40% and increasing user engagement by 25% through well-documented and tested code implementation.
 - Well-versed in diverse technologies to create robust and scalable solutions. Skilled in developing Swagger API, SAP connectors, and portals, seamlessly integrating disparate systems for optimized performance.
 - Strong understanding of building and deploying applications using Bamboo and GCP Cloud Build, ensuring efficient and streamlined processes. Proficient in Kubernetes and Ansible for deploying applications, and adept at utilizing Docker for containerization to facilitate smooth deployment workflows
 - Proficient in Agile methodologies, with a deep understanding of Jira, Scrum/Kanban, Confluence, Bitbucket, and the Agile development life-cycle, driving efficient project management and collaboration.
- Graduate Trainee** | Kodnest December 2022 – April 2023
- Worked on Java and Python-based full-stack development, acquiring foundational knowledge in manual testing methodologies. Equipped with industry-standard skills in these languages, capable of developing robust and versatile software solutions
 - Completed a rigorous and structured training program within the company, gaining comprehensive insights into various facets of business operations, thereby enhancing industrial adaptability and proficiency.
 - Gained valuable insights into industry-level technologies and software development practices, positioning me as a versatile software engineer capable of contributing to various projects.

EDUCATION

GEC Gudlavalleru	Bachelor's in Electronics And Communication Engineering GPA : 8.61	June 2018 – April 2022
Sri Chaitanya jr College	Intermediate Percentage : 95	June 2016 – May 2018
Nagarjuna High School	SSC GPA:9.3	June 2015 – May 2016

PROJECTS

- Analysis-of-Anime-Recommendations-Dataset** | Python, Jupiter Notebook, MySQL
- Orchestrated keen knowledge in SQL and Python in the analysis of anime-based datasets.
 - Achieved 75% faster analysis of data by cleaning the data and reported analysis on pictorial form for better understanding of analysis.
- Portfolio Website** | HTML, CSS, js
- A Self-esteemed portfolio describing end-to-end details of my industrial experience.
 - A kick-start static web application demonstrating my hands-on experience with the web tech stack.
- Food Recipe API** | Java,
- Robust API Describing the food recipe based on the driven calls with basic auth.
 - To leverage and enhance proficiency in Rest API created a Swagger that describes recipes based on the request.
